About me

I am Soshi Kakio , a first-year Ph.d. student at The University of Osaka, Japan, and a specially appointed researcher at SANKEN (The Institute of Scientific and Industrial Research at The University of Osaka). My research mainly focuses on data stream mining and event tensor decomposition [**??**]. I am fortunate to be advised by Prof. Yasushi Sakurai and Prof. Yasuko Matsubara at SANKEN. I received my B.Sc. degrees and M.Sc. degrees from The University of Osaka advised by Prof. Yasushi Sakurai in March 2024 and March 2026, respectively.

Research interests: Data mining | Bayesian | Gaussian process | Stream processing | Tensor decomposition
